ADDITIONAL INFORMATION

One of passion is gym and nutrition as I believe that mental health is directly correlated to physical activities, hence one of my next projects which I am starting comprise of using SQL, R and Tableau to visualise a guide to nutrition and exercise, and the correlation between nutrition and Covid-19.

PORTFOLIO PROJECTS

- Completed a project in exploring Covid-19 deaths by utilising Microsoft SQL server for data cleaning and data processing.
- Visualised the data gathered onto a Tableau dashboard, making it easier to understand.
- Analysed how different variable affect movies gross revenues, using Python (correlation, matrix)
- Used Python to web scrape Flannels in order to track the price movements of a clothing item that was on sale.

PROFESSIONAL SUMMARY

An accounting and finance graduate, passionate in data analytics and enjoys using analytical thinking to solve a real life problem, especially data related.

Well versed in SQL, Tableau and Python, and have undergone rigorous training and practices via various personal projects. Currently, I am nearing the completion of a job-ready, Google Data Analyst Certificate, which will further consolidates my skills within this field.

WORK HISTORY

Finance Assistant, 08/2021 to 10/2021

Autism Hampshire - Winchester, Hampshire

- Investigated daily variances uncovered in cashbook and corrected errors to resolve discrepancies.
- Monitored accounts payable and receivable statuses, keeping financial records up-to-date.
- Reviewed general ledger entries and assessed accuracy.
- Tracked organisation's expenses and income with SAGE software, diligently reconciling accounts to maintain high accuracy.
